Addendum No. 5
ITB 09/10-24

Bulk Hypochlorite Storage and Feed System (Rebid)

Each recipient of this Addendum No. 3 to the Invitation to Bid (hereinafter "ITB") who responds to the ITB acknowledges all of the provisions set forth in the ITB and agrees to be bound by the terms thereof. This Addendum shall modify, clarify, change or add information and clarification and become part of the above referenced ITB.

REVISION:

Addendum No. 4, Section 2 - Special Terms (Revised), Page 2, Article 8, Paragraph C.3, SHALL BE DELETED

"After day tank and feed system are constructed, tested, and ready to be placed in service, the Contractor shall provide temporary sodium hypochlorite bulk storage and transfer system that will be used to fill the day tank on a daily basis. The storage and transfer system shall consist of storage vessels and transfer pumps. Contract shall provide temporary piping and power. Contractor is wholly responsible for the design and maintenance of this system. The Owner shall be responsible for operating the system and transferring the chemical to the day tank. Transfer pump shall be sized to fill the day tank in no more than 45 minutes. The owner reserves the right to inspect for cleanliness any temporary storage vessels before they can be put into service by the Contractor. Materials and equipment used for the Temporary Bulk Storage and Transfer System will be the property of the Contractor at the completion of construction."

Proposers must acknowledge receipt of this Addendum No. 5 in the space provided below. This Addendum forms an integral part of the ITB documents and therefore must be executed. Failure to return this addendum with your proposal submittal may be cause for disqualification.
