SECTION 1 – SCOPE OF WORK

Contractor shall provide all labor, materials and equipment necessary to resurface and construct curb islands along 19th Street and 21st Street, as detailed in the specifications and plans. The scope of work may include adjusting existing manhole and valve box covers to proposed finished grade, replace existing curb in locations of cracked and/or broken curb or curb that does not provide a structural barrier, and install appropriate signing and marking (both temporary and permanent, as necessary).

Both 19th Street and 21st Street are existing two-lane undivided roadways from Tamarind Avenue west to end. Sidewalk is typically present on both the north and south sides. The roadway contains several water valves, fire hydrants and sanitary manholes. The roadway exhibits some pavement failure. The project corridor is mostly residential and is also adjacent to a City Park on the west end.

City utilities (water, sanitary and drainage) have been identified to be in the project area. Contractor will have to verify the location of these utilities, as well as the location of all non-City utilities and coordinate with impacted utility owners. Contractor must provide a Maintenance of Traffic (MOT) plan and notification plan to the City of West Palm Beach as part of the Right of Way Permit Application process. Contractor will have to construct a resurfaced pavement section that conforms to the City of West Palm Beach standards as per the Technical Specifications.

This project is funded through a Housing & Urban Development (HUD) grant and time is of the essence. In addition to the bid costs submitted to the City of West Palm Beach, the City will also evaluate based on availability and ability to perform the work under an expedited schedule.

The Required Contract Provisions shall not be incorporated by reference in any case. 3. SECTION 3 CLAUSE.

- (1) The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U. S.C. 170 1u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall to the greatest extent feasible, be directed to low-and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

- (2) The parties to this contract agree to comply with HUD's requirements in 24 CFR Part 135, which implement Section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the Part 135 regulations.

- (6) Noncompliance with HUD's regulations in 24 CFR Part 135 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.

4. NON-DISCRIMINATION.

- (1) **Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity.**
(Executive Order 11246)
 - (a) The Contractor's attention is called to the "Equal Opportunity Clause" and the "Standard Federal Equal Employment Specification" set forth herein.

The Contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR-60-4.3(a), and its efforts to meet the goals. The hours of minority and female employment and training must be uniform throughout the length of the contract, and in each trade, and the contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.
 - (c) The Contractor shall provide written notifications to the Director of the Office of Federal Contract Compliance Programs within 10 working days of award of any construct subcontract in excess of \$10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address and telephone number of the subcontractor; employer identification number of the subcontractor; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract is to be performed.

(2) Affirmative steps shall include:

- (i) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
- (ii) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
- (iii) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women's business enterprises;
- (iv) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women's business enterprises;
- (v) Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and
- (vi) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2) (i) through (v) of this section.

(3) **Contractor Representations.** During the performance of the contract, the contractor agrees as follows:

- (a) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other form of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notice setting forth the provisions of this non-discrimination clause.
- (b) The contractor will, in all solicitations or advancements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin.
- (c) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice advising the labor union or workers' representative of the contractor's commitments under Section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

- (d) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations and relevant orders of the Secretary of Labor.
 - (e) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor of purposed of investigation to ascertain compliance with such rules, regulations and orders.
 - (f) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations or orders, this contract may be cancelled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation or order of the Secretary of Labor, or as otherwise provided by law.
 - (g) The contractor will include the provisions of sub-paragraphs (a) through (f) in every subcontract of purchase order unless exempted by rules, regulations or orders of the Secretary of labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: provided, however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may requires the Untied States to enter into such litigation to protect the interests of the United States.
 - (h) The contractor shall keep such records as are necessary to determine compliance with the equal employment opportunity obligations. All such records must be maintained for a period of three (3) years following completion of the contract work and be available at reasonable times and places for inspection by representatives of the City, FDOT and HUD.
- (4) **Equal Employment Opportunity:** Standard Construction Contract Specifications. (Executive Order 11246)

1. As used in these specifications:

- a. "Covered area" means the geographical area described in the solicitation from which this contract resulted;
- b. "Director" means Director, Office of Federal Contract Compliance Programs, United States Department of Labor, or any person to whom the Director delegates authority;
- c. "Employer identification number" means the Federal Social Security number used on the Employer's Quarterly Federal Tax Return, U. S. Treasury Department Form 941.
- d. "Minority includes:
 - (I) Black (all persons having origins in any of the Black African racial groups not of Hispanic origins);

- (ii) Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race);
 - (iii) Asian and Pacific Island (all persons having origins in any or the original people of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands); and
 - (iv) American Indian or Alaskan Native (all persons having origins in any of the original people of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).
2. Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the work involving any construction trade, it shall physically include in each subcontract in excess of \$10,000 the provisions of these specifications and the Notice which contains the applicable goals for minority and female participation and which is set forth in the solicitations from which this contract resulted.
 3. If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved by the U. S. Department of Labor in the covered area either individually or through an association, its affirmative action obligations on all work in the Plan area (including goals and timetables) shall be in accordance with that Plan for those trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each Contractor or Subcontractor participating in the approved Plan is individually required to comply with its obligations under the EEO clause, and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. The overall good faith performance by other Contractors or Subcontractors toward a goal in an approved Plan does not excuse any covered Contractor's failure to take good faith efforts to achieve the Plan goals and timetables.
 4. The Contractor shall implement the specific affirmative action standards provided in paragraphs 7(a) through (p) of these specifications. The goals set forth in the solicitation from which this contract resulted are expressed as percentages of the total hours of employment and training of minority and female utilization the Contractor should reasonably be able to achieve in each construction trade in which it has employees in the covered area. Covered Construction contractors performing construction work in geographical areas where they do not have a federally assisted construction contract shall apply the minority and female goals established for the geographical area where the work is being performed. Goals are published periodically in the Federal Register in notice form, and such notices may be obtained from any Office of Federal Contract and Compliance Programs office or from Federal procurement contracting officers. The Contractor is expected to make substantially uniform progress in meeting its goals in each craft during the period specified.
 5. Neither the provisions of any collective bargaining agreement, nor the failure by a union with whom the Contractor has a collective bargaining agreement, to refer either minorities or women shall excuse the Contractor's obligations under these specifications, Executive Order 11246, or the regulations promulgated pursuant thereto.
 6. In order for the non-working training hours of apprentices and trainees to be counted in meeting the goals, such apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U. S. Department of Labor.

7. The Contractor shall take specific affirmative actions to ensure equal employment opportunity. The evaluation of the Contractor's compliance with these specifications shall be based upon its effort to achieve maximum results from its actions. The Contractor shall document these efforts fully, and shall implement affirmative action steps at least as extensive as the following:
- a. Ensure and maintain a working environment free of harassment, intimidation, and coercion at all sites, and in all facilities at which the Contractor's employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction project. The Contractor shall specifically ensure that all foremen, superintendents, and other on-site supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites or in such facilities.
 - b. Establish and maintain a current list of minority and female recruitment sources provide written notification to minority and female organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organizations' responses.
 - c. Maintain a current file of the names, addresses and telephone numbers of each minority and female off-the-street applicant and minority or female referral from a union, a recruitment source or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union or, if referred, not employed by the Contractor, this shall be documented in the file with the reason therefore, along with what ever additional actions the Contractor may have taken.
 - d. Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.
 - e. Develop on-the-site-job training opportunities and/or participate in training programs for the area which expressly include minorities and women, including upgrading programs and apprenticeship and trainee programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor. The Contractor shall provide notice of these programs to the sources complied under 7a above.
 - f. Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper; annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.
 - g. Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination or other

employment decisions including specific review of these items with onsite supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

- h. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.
 - i. Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.
 - j. Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.
 - k. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.
 - l. Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.
 - m. Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.
 - n. Ensure that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.
 - o. Document and maintain a record of all solicitations of offers for subcontractors from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.
 - p. Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's EEO policies and affirmative action obligations.
8. Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations (7a through p). The efforts of a contractor association, joint contractor-union, contractor-community, or other similar group of which the contractor is a member and participant, may be asserted as fulfilling any one or more of its obligations under 7a through p or these specifications provided that the contractor actively participates in the group, makes

every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the Contractor's minority and female workforce participation, makes a good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation to comply, however, is the Contractor's and failure of such a group to fulfill an obligation shall not be a defense for the Contractor's noncompliance.

9. A single goal for minorities and a separate single goal for women have been established. The Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and non-minority.

Consequently, the Contractor may be in violating of the Executive Order if a particular group is employed in a substantially disparate manner (for example, even though the Contractor has achieved its goals for women generally, the Contractor may be in violation of the Executive Order if a specific minority group of women is underutilized).

10. The Contractor shall not use the goals and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex, or national origin.
11. The Contractor shall not enter into any Subcontract with any person or firm debarred from Government contracts pursuant to Executive Order 11246.
12. The Contractor shall carry out such sanctions and penalties for violation of these specifications and of the Equal Opportunity Clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations, by the Office of Federal Contract Compliance Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in violating of these specifications and Executive Order 11246, as amended.
13. The Contractor, in fulfilling its obligations under these specifications, shall implement specific affirmative action steps, at least as extensive as those standards prescribed in paragraph 7 of these specifications, so as to achieve maximum results from its efforts to ensure equal employment opportunity. If the Contractor fails to comply with the requirements of the Executive Order, the implementing regulations, or these specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.
14. The Contractor shall designate a responsible official to monitor all employment related activity to ensure that the company EEO policy is being carried out; to submit reports relating to the provisions hereof as may be required by the Government and to keep records. Records shall at least include for each employee the name, address, telephone numbers, construction trade, union affiliation if any, employee identification number when assigned, social security number, race, sex, status (e.g., mechanic, apprentice trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay, and locations at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; however, to the degree that existing records satisfy this requirement, contractors shall not be required to maintain separate records.
15. Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance or upon the application of requirements for the hiring of local or other area residents (e.g. those under the Public Works Employment Act of 1977 and the Community Development Block Grant Program).

5. **CIVIL RIGHTS**. The following requirements will apply to the awarded contract and any sub-contracts:

- (1) **Civil Rights**. Title VI of the Civil Rights Act of 1964 (P. L. 88-352), and the regulations issued pursuant thereto (24 CFR Part 1), which provides that no person in the United States shall on the grounds of race, color or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the applicant receives Federal financial assistance and will immediately take any measures necessary to effectuate This assurance/ If any real property or structure thereon is provided or improved with the aid of Federal financial assistance extended to the applicant, this assurance shall obligate the applicant, or in the case of any transfer of such property, any transferee, for the period during which the real property or structure is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits.
- (2) **Section 109 Housing and Community Development Act of 1974**. The contractor certifies that the following Section 109 statement forms part of the contract and is in compliance with Section 570.601 of the Community Development Block Grant Regulations:

- (3) **Age**. In accordance with section 4 of the Age Discrimination in Employment Act of 1967, as amended, 29 U.S.C. §623, the Contractor agrees to refrain from discrimination against present and prospective employees for reason of age. Further, to the extent required by law, the Contractor shall comply with the requirements of the Age Discrimination Act of 1975 (P.L. 94-135), as amended, which provides that no person in the United States shall, on the basis of age, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.
- (4) **Disabilities**.  - (2) The classification is utilized in the area by the construction industry; and
 - (3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.
- (b) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and HUD or its designee agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by HUD or its designee to the Administrator of the Wage and Hour Division, Employment Standards Administration, U. S. Department of Labor, Washington, D. C. 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action with in 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB control number 1215-0140.)

- (c) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and HUD or its designee do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate). HUD or its designee shall refer the questions, including the view of all interested parties and the recommendation of HUD or its designee, to the Administrator for determination. The Administrator, or an authorized representative will issue a determination within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30 day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)
- (d) The wage rate (including fringe benefits where appropriate) determined pursuant to subparagraphs (1)(b) or (c) of this paragraph, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.
- (III) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.
- (IV) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program. Provided. That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program. (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)
- A.2: (I) **Withholding.** HUD or its designee shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other Federal contract with the same prime contractor, or any other Federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic including any apprentice, trainee or helper, employed or working on the site of the work, all or part of the wages required by the contract, HUD or its designee may, after written notice to the contractor, sponsor, applicant or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased. HUD or its designee may, after written notice to the contractor, disburse such amounts withheld for and on account of the contractor or subcontractor to the respective employee to whom, they are due. The Comptroller General shall make such disbursements in the case of direct Davis-Bacon Act contracts.
- A.3: (I) **Payrolls and basic records.** Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work preserved for a period of three years thereafter for all laborers and mechanic working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in Section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5 (a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in Section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborer or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing

apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage raises prescribed in the applicable programs. (Approved by the Office of Management of Budget under OMB Control Number 1215-0140 and 1215-0017.)

- (II) (a) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to HUD or its designee if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant, sponsor, or owner, as the case may be, for transmission to HUD or its designee. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR Part 5.5(a)(3)(i). This information may be submitted in any form desired. Optional form WH-347 is available for this purpose and may be purchased from the Superintendent of Documents (Federal Stock Number 029-005-00014-1), U.S. Government Printing Office, Washington D. C. 20402. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. (Approved by the Office of Management and Budget under OMB Control Number 1215-0149.)
- (b) Each payroll submitted shall be accompanied by a "Statement of Compliance." signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:
- (1) That the payroll for the payroll period contains the information required to be maintained under 29 CFR Part 5.5(a)(3)(i) and that such information is correct and complete;
 - (2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR Part 3;
 - (3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.
- (c) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph A.3(ii)(b) of this section.
- (d) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under Section 1001 of Title 18 and Section 231 of Title 31 of the United States Code.
- (III) The contractor or subcontractor shall make the records required under paragraph A.3(i) or this section available for inspection, copying or transcription by authorized representatives of HUD or its designee or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, HUD or its designee may, after written notice to the contractor, sponsor, applicant or owner, take such action as may be necessary to cause the suspension of any further payment, advance or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR Part 5.12.

A.4: (I) **Apprentices and Trainees.** Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U. S. Department of Labor,

Employment and Training Administration, Bureau of Apprenticeship and Training, or with a State Apprenticeship Agency recognized by the Bureau, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the lot in any craft classification shall not be greater than the ratio permitted to contractor as to the entire work force under the registered program and worker listed on a payroll at an apprentice wage rate, who is not register or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice, performing work on the job site in excess of the ratio permitted under the register program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Bureau of Apprenticeship and Training, or a State Apprenticeship Agency recognized by the Bureau, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentice at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

- (II) **Trainees.** Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U. S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program.

If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work perform until an acceptable program is approved.

- (III) **Equal employment opportunity.** The utilization of apprentices, trainees and journeymen under 29CFR Part 5 shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended and 29 CFR Part 30.

- A.5: (I) **Compliance with Copeland Act requirements.** The contractor shall comply with the requirements of 29 CFR Part 3 which are incorporated by reference in this contract.

- A.6: (I) **Subcontracts.** The contractor or subcontractor will insert in any subcontracts the clauses contained in Subparagraphs 1 through 11 of this Paragraph A, and such other clauses as HUD or its designee may by appropriate instructions require and a copy of the applicable prevailing wage decision, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in this Paragraph.
- A.7: (I) **Contracts termination; debarment.** A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.
- A.8: (I) **Compliance with Davis-Bacon and Related Act Requirements.** All rulings and interpretations of the Davis-Bacon Acts contained in 29 CFR Part 1, 3, and 5 are herein incorporated by reference in this contract.
- A.9: (I) **Disputes concerning labor standards.** Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR Parts 5,6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and HUD or its designee, the...U.S. Department of Labor, or the employees or their representatives.
- A.10: (I) **Certification of Eligibility.** By entering into this contract the contractor certifies it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1) or to be awarded HUD contracts or participate in HUD programs pursuant to 24 CFR Part 24.
- (II) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of Section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1) or to be awarded HUD contracts or participate in HUD programs pursuant to 24 CFR Part 24.
- (III) The penalty for making false statements is prescribed in the U. S. Criminal Code, 18 U.S.C. 1001. Additionally, U.S.C., Section 1010, Title 18. U.S.C., "Federal Housing Administration transactions, provides in part "Whoever, for the purpose of, influencing in any way the action of such Administration...makes, utters or publishes any statement, knowing the same to be false...shall be fined not more than \$5,000 or imprisoned not more than two years or both."
- A.11: (I) **Complaints, Proceedings, or Testimony by Employees.** No laborer or mechanic to whom the wage, salary, or other labor standards provisions of this Contract are applicable shall be discharged or in any other manner discriminated against by the Contractor or any subcontractor because such employee has filed any complaint or instituted or caused to be instituted any proceeding or has testified or is about to testify in any proceeding under or relating to the labor standards applicable under this Contract to his employer.
- B. **Contract Work Hours and Safety Standards Act.** The provisions of this Paragraph B are applicable only where the amount of prime contract exceeds \$100,000. As used in this paragraph, the term "laborers" and "mechanics" include watchmen and guards.
- (1) **Overtime requirements.** No contractor or subcontracting contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require of permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
- (2) **Violation; liability for unpaid wages; liquidated damages.** In the event of any violation of the clause set forth in subparagraph (1) of this paragraph, the contractor and any subcontractor responsible therefore shall be liable for the unpaid wages. In addition,

such contractor and subcontractor shall be liable to the United States (in case of work done under contract for the District of Columbia or a territory, to such District or such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer of mechanic, including watchmen and guards, employed in violation of the clause set forth in subparagraph (1) of this paragraph, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of 40 hours without payment of the overtime wages required by the clause set forth in subparagraph (1) of this paragraph.

- (3) **Withholding for unpaid wages and liquidated damages.** HUD or its designee shall upon its own action or upon written request of authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contractor or any other Federal contract with the same prime contract, or any other Federal-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in subparagraph (2) of this paragraph.
- (4) **Subcontracts.** The contractor or subcontractor shall insert in any subcontracts the clauses set forth in subparagraphs (1) through (4) of this paragraph and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in subparagraphs (1) through (4) of this paragraph.

C. **Health and Safety.** The provisions of this Paragraph C are applicable only where the amount of the prime contract exceeds \$100,000.

- (1) No laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to his health and safety as determined under construction safety and health standards promulgated by the Secretary of Labor by regulation.
- (2) The Contractor shall comply with all regulations issued by the Secretary of Labor pursuant to Title 29 Part 1926 (formerly part 1518) and failure to comply may result in imposition of sanctions pursuant to the Contract Work Hours and Safety Standards Act 40 USC 3701 et seq.
- (3) The Contractor shall include the provisions of this paragraph in every subcontract so that such provisions will be binding on each subcontractor. The Contractor shall take such action with respect to any subcontract as the Secretary of Housing and Urban Development or the Secretary of Labor shall direct as a means of enforcing such provisions.

Form HUD-4010 (07/2003)
ref. Handbook 1344.1

GUIDANCE TO CONTRACTOR FOR COMPLIANCE WITH LABOR STANDARDS PROVISIONS:

- A. **Contracts with Two Wage Decisions.** If the contract includes two wage decisions, the contractor, and each subcontractor who works on the site, must submit either two separate payrolls (one for each wage decision) or one payroll which identifies each worker twice and the hours worked under each wage decision. One single payroll, reflecting each worker once, may be submitted provided the Contractor uses the higher rate in the wage decisions for each identical job classification. However, where a job classification is not listed in a wage decision and is needed for that portion of the work, the classification must be added to the wage decision. A worker may not be paid at the rate for a classification using the hourly rate for that same classification in another wage decision. After the additional classification is approved, the contractor may pay the higher of the two rates and submit one payroll, if desired.

B. Complying with Minimum Hourly Amounts

- (1) The minimum hourly amount due to a worker in each classification is the total of the amounts in the "Rates" and "Fringe Benefits" (if any) columns of the applicable wage decision.
- (2) The contractor may satisfy this minimum hourly amount by any combination of cash and bona fide fringe benefits, regardless of the individual amounts reflected in the "Rates" and "Fringe Benefits" columns.
- (3) A contractor payment for a worker which is required by law is not a fringe benefit in meeting the minimum hourly amount due under the applicable wage decision. For example, contractor payments for FICA or unemployment insurance are not a fringe benefit; however, contractor payments for health insurance or retirement are a fringe benefit. Generally, a fringe benefit is bona fide if (a) it is available to most workers and (b) involves payments to a third party.
- (4) The hourly value of the fringe benefit is calculated by dividing the contractor's annual cost (excluding any amount contributed by the worker) for the fringe benefit by 2080. Therefore, for workers with overtime, an additional payment may be required to meet the minimum hourly wages since generally fringe benefits have no value for any time worked over 40 hours weekly. (If a worker is paid more than the minimum rates required by the wage decision, this should not be a problem. As long as the total wages received by a worker for straight time equals the hours worked times the minimum hourly rate in the wage decision, the requirement of the Davis-Bacon and Related Acts has been satisfied.)

C. Overtime. For any project work over 40 hours weekly, a worker generally must be paid 150% of the actual hourly cash rate received, not the minimum required by the wage decision. (The Davis-Bacon and Related Acts only establishes minimum rates and does not address overtime; the Contract Work Hours Act contains the overtime requirement and uses "basic rate of pay" as the base for calculation, not the minimum rates established by the Davis-Bacon and Related Acts.)

D. Deductions. Workers who have deductions, not required by law, from their pay must authorize these deductions in writing. The authorization must identify the purpose of each deduction and the amount, which may be a specific dollar amount or a percentage. A copy of the authorization must be submitted with the first payroll containing the deduction. If deducted amounts increase, another authorization must be submitted. If deducted amounts decrease, no revision to the original authorization is needed. Court-ordered deductions, such as child support, may be identified by the responsible payroll person in a separate document. This document should identify the worker, the amount deducted and the purpose. A copy of the court order should be submitted.

E. Classifications Not Included in the Wage Decision. If a classification not in the wage decision is required, please advise the owner's representative in writing and identify the job classification(s) required. In some instances, the State agency may allow the use of a similar classification in the wage decision.

Otherwise, the contractor and affected workers must agree on a minimum rate, which cannot be lower than the lowest rate for any trade in the wage decision. Laborers (including any subcategory of the laborer classification) and truck drivers are not considered a trade for this purpose. If the classification involves a power equipment operator, the minimum cannot be lower than the lowest rate for any power equipment operator in the wage decision. The owner will provide forms to document agreement on the minimum rate by the affected workers and contractor.

The U.S. Department of Labor (USDOL) must approve the proposed classification and rate. The contractor may pay the proposed rate until the USDOL makes a determination. Should the USDOL require a higher rate, the contractor must make wage restitution to the affected worker(s) for all hours worked under the proposed rate.

F. Supervisory Personnel. Foremen and other supervisory personnel who spend at least 80% of their time supervising workers are not covered by the Davis-Bacon and Related Acts. Therefore, a wage decision will not include such supervisory classifications and their wages are not subject to any minimums under the Davis-Bacon and Related Act or overtime payments under the Contract Work Hours and Safety Standards Act. However, foremen and other supervisory personnel who spend less than 80% of their

time engaged in supervisory activities are considered workers/mechanics for the time spent engaged in manual labor and must be paid at least the minimum in the wage decision for the appropriate classification(s) based on the work performed.

- G. **Sole Proprietorships / Independent Contractors / Leased Workers.** The nature of the relationship between a prime contractor and a worker does not affect the requirement to comply with the labor standards provisions of this contract. The applicability of the labor standards provisions is based on the nature of the work performed.

If the work performed is primarily manual in nature, the worker is subject to the labor standards provisions in this contract. For example, if John Smith is the owner of ABC Plumbing and performs all plumbing work himself, then Mr. Smith is subject to the labor standards provisions, including minimum wages and overtime. His status as “owner” is irrelevant for labor standards purposes.

If a worker meets the IRS standards for being an independent contractor, and is employed as such, this means that the worker must submit a separate payroll as a subcontractor rather than be included on some other payroll. The worker is still subject to the labor standards provisions in this contract, including minimum wages and overtime.

If a contractor or subcontractor leases its workers, they are subject to the labor standards provisions in this contract, including minimum wages and overtime. The leasing firm must submit payrolls and these payrolls must reflect information required to determine compliance with the labor standards provisions of this contract, including a classification for each worker based on the nature of the work performed, number of regular hours worked, and number of overtime hours worked.

- H. **Apprentices / Helpers.** A worker may be classified as an apprentice only if participating in a federal or state program. Documentation of participation must be submitted. Generally, the apprentice program specifies that the apprentice will be compensated at a percentage of journeyman rate. For Davis-Bacon Act purposes, the hourly rate cannot be lower than the percentage of the hourly rate for the classification in the applicable wage decision.

If the worker does not participate in a federal or state apprentice program, then the worker must be classified according to duties performed. This procedure may require classification in the “trade” depending on tools used, or as a laborer if specialized tools of the trade are not used. The contractor may want to consult with the Wage and Hour Division of the U.S. Department of Labor located in most large cities regarding the appropriate classification.

Presently, no worker may be classified as a “helper”. As with apprentices not participating in a formal apprentice program, the worker must be classified according to duties performed and tools used.

DISADVANTAGED BUSINESS ENTERPRISE PROGRAM

- (1) **Policy.** The contractor shall ensure that Disadvantaged Business Enterprises, as defined in 49 C.F.R. Part 26, as amended, shall have the opportunity to participate in the performance of this project. In this regard, the contractor shall take all necessary and reasonable steps in accordance with applicable federal and state regulations, to ensure that the Disadvantaged Business Enterprises have the opportunity to compete for and perform contracts or subcontracts with respect to this Project.

- (2) **Minority and Female Participation**

Excerpt from Federal Regulations at 24 CFR 85.36(e):

- (e) Contracting with small and minority firms, women's business enterprise and labor surplus area firms.
- (1) The grantee and subgrantee will take all necessary affirmative steps to assure that minority firms, women's business enterprises, and labor surplus area firms are used when possible.

- (2) Affirmative steps shall include:
- (i) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
 - (ii) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
 - (iii) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women's business enterprises;
 - (iv) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women's business enterprises;
 - (v) Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and
 - (vi) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2) (i) through (v) of this section.

Contractor shall make a positive effort to utilize small business and minority/women-owned business enterprises in the procurement of supplies, equipment, construction or services.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29 CFR 5.5(a)(1)(ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7).
Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

1. HOW TO SUBMIT A BID:

a. **The original and three (3) copies** of your bid must be submitted in a sealed envelope, marked on the outside lower left-hand corner of the envelope with the Bid number, title, and date and hour bids are scheduled to be received. Bids shall be mailed or hand-delivered to:

**City of West Palm Beach - Procurement Division
401 Clematis Street, 5th Floor
West Palm Beach, FL 33401.**

b. Time is of the essence and any bid received after the closing date and time indicated on the cover of the Invitation to Bid, whether by mail or otherwise, will be returned unopened and will not be considered. The time of receipt shall be determined by the time clock located in the Procurement Division. Bidders are responsible for insuring that their bid is stamped by Procurement personnel by the deadline indicated. The City shall in no way be responsible for delays caused by any occurrence.

c. Bids submitted by telephone, telegram or facsimile shall not be accepted.

d. Submission of a Bid implies a full understanding of the Invitation to Bid, the Special Terms, the General Conditions and the drawings and specifications, the Project and the Work. Any misunderstanding as to such terms by the Bidder will not relieve the Bidder from performance.

e. This Invitation to Bid consists of this document along with all plans, drawings and/or technical specifications related to this procurement, all of which are incorporated herein by this reference.

2. THE BID PACKAGE.

The Bid Package documents are listed on page 64, Form B1.

The Bid Package Documents, and any other required documents must be returned in order for the bid to be considered.

AVOID BID REJECTION:

Bids may be rejected for noncompliance to requirements after review by the Procurement Official.

All bids must be submitted on the provided Bid forms (B1 – B16).

Forms B-2 and B-3 must be signed in ink by an officer authorized to bind the Bidder.

All Forms must be fully completed.

Failure to complete any form or provide the required signature may be grounds for rejection of the bid.

3. COMPLETION OF BID SUBMISSION PACKAGE.

a. It is the responsibility of the bidder to insure that all pages are included. All bidders are advised to closely examine this package.

b. **All bids must be submitted on the provided Bid forms (B1 – B16).** Bids submitted on Contractor Letterhead or quotation forms will not be accepted.

c. All bids (Form B-2 and B-3) must be typed or written in ink, and must be signed in ink by an officer or employee having authority to bind the company or firm. **Failure to submit a duly signed bid shall be cause for rejection of the bid.**

4. ERRORS/ERASURES/CORRECTIONS

a. **Bids having erasures or corrections must be initialed in ink by the Bidder.** If a correction is necessary, draw a single line through the entered figure and enter the corrected figure above it and initial the correction. Any illegible entries, pencil bids or corrections not initialed may not be accepted.

b. In the event of mathematical extension error(s), the unit price will prevail and the bidder's total offer will be corrected accordingly. In the event of addition errors, the extended line item will prevail and the bidder's total will be corrected accordingly.

c. Bidders shall not be allowed to modify their bids after the bid opening time and date. Bid files may be examined during normal working hours, after bid opening, by appointment only.

d. Bidder represents that it has taken all necessary steps to ascertain the nature and location of the work and that it has investigated and satisfied itself as to the general and local conditions which can affect the performance of the work, including: (i) conditions relating to access, egress, transportation, debris disposal, parking and storage of materials; (ii) availability of labor; and (iii) physical conditions at the site. Any failure by Bidder to take these steps will not relieve the Bidder from the responsibility for estimating properly the difficulty and cost of successfully performing the work without additional expense to Owner.

5. BID PRICES

All prices shall remain valid for ninety (90) days after the date of bid closing or other time stated in the Special Terms.

Prices must be stated in the units specified on the Schedule of Bid Items (Form B3). Bidders may offer a cash discount for prompt payment; however, such discounts should not be considered in the unit price bid unless otherwise specified in special conditions.

6. SUBSTITUTIONS

If Bidder wishes to offer a substitution for a specified item of materials or equipment, the proposed substitution must be listed on the Substitution Sheet (Form B4) in the Bid Submittal Package. In each case, the difference in price between the base bid and the price for the proposed substitution shall be specified or if there is no price difference, that shall be specifically indicated. The Bid shall reflect the Bidder's price for the item specified in the Schedule of Bid items; not the proposed substitution. The best value bid will be established considering the base Bid, not any proposed substitution.

7. SUBCONTRACTING

If a bidder intends to subcontract any portion of the work, the Schedule of Contractors (Form B5) must be fully completed and submitted with the bid. The name, address, phone number and extent of work and value of the work to be performed should be included for all sub-contractors, including any small business contracts that will also be listed on Form B12- Statement of Small Business Participation. All Small Business subcontractors must also be listed on both Form B5 – Schedule of Sub-Contractors and Form B12-Statement of Small Business Participation. Owner reserves the right to reject any bid if the bid names a subcontractor who has previously failed in the proper performance of an award, or failed to deliver on time contracts of a similar nature, or who is not in a position to perform under this award. Owner reserves the right to inspect all facilities of any subcontractor in order to make a determination as to the foregoing.

Bid deposits of unsuccessful bidders will be returned after execution of a contract.

9. CERTIFICATION AND LICENSES

Bidder must include with his bid package a copy of all applicable Certificates of Competency issued by the State of Florida or the County Construction Industry Licensing Board and a current Occupational License in the name of the Bidder submitting the Bid from the County in which the Bidder's principal place of business is located. All oral or written inquiries are to be directed to the Procurement Official. Any violation of this condition may result in rejection and/or disqualification of the Bidder.

11. CONFLICT OF INTEREST

Further, all bidders must disclose the name of any City employee who owns, directly or indirectly, interest of ten percent (10%) or more in the bidder's firm or any of its affiliates.

12. ETHICS REQUIREMENTS. No Bidder may employ, directly or indirectly, the mayor, any member of the city commission or any director or department head of the City. The City Code prohibits any employee, or member or their immediate family or close personal relation to receive a substantial benefit or profit from any contract entered into with the City, either directly or through any firm of which they are a member, or any corporation of which they are a stockholder, or any business entity in which they have a controlling financial interest. Any affected city employee may seek a conflict of interest opinion from the city ethics officer prior to the submittal of a bid. Additionally, any employee may seek a legal opinion from the State of Florida Ethics Commission regarding state law conflict of interest provisions.

13. SMALL BUSINESS PROGRAM. The goal for Small Business participation under the contract resulting from this Invitation to Bid is **15%** of the total contract value. Only small businesses certified by the City of West Palm Beach Small Business Program or from another agency whose certification is accepted by the Small Business Program will be accepted toward the small business goal. For your convenience, all Palm Beach County certified small businesses can streamline the City's certification process by submitting the appropriate documentation. The City may require additional information to ensure compliance with the City's small business criteria; therefore please contact the City's Small Business Office at (561) 822-2100 for further instruction for small business certification.

Bidders/contractors are encouraged to reference the Small Business Program's website at <http://www.wpb.org/procurement/index.php> for a directory of all currently certified small businesses. The directory is intended to assist bidders/contractors with meeting small business participation goals on City projects by connecting them with potential subcontractors for quotes, bids and RFP's.

In accordance with the SB Ordinance, the SB Program has adopted procedures requiring the completion of forms to insure compliance with the Small Business Ordinance. These forms are required to be submitted, as appropriate, with each proposal and/or during the course of the contract.

The following Small Business forms should be submitted with the Bid:

■ STATEMENT OF SMALL BUSINESS PARTICIPATION

The Contractor shall perform work only in accordance with the specifications and permitted drawings and any subsequent revisions thereto.

d) If the permit approval process requires change the scope of the work, the Contractor shall notify the owner and Engineer within seven (7) days of receipt of the permitted drawings and such notification shall contain a written description of the change and its impact on the cost and schedule, if any. Failure to provide such notice within seven days shall be a complete waiver by the Contractor of all additional cost and time and Contractor shall perform the work at his expense and complete the work according to schedule and in no event shall Contractor recover delay or consequential damages.

e) The Contractor shall keep at the work site one (1) copy of all permitted drawings and specifications kept current with all changes and modifications and shall at all times give the Owner, the Engineer and all trades performing at the project, access thereto.

GC 6 MATERIALS, LABOR, EQUIPMENT.

Unless otherwise specified, all materials incorporated in the final work shall be new and both workmanship and

materials shall be of good quality. The Contractor shall, if required, furnish satisfactory evidence as to the kind, quality and manufacturer of materials.

GC 7 QUALITY ASSURANCE

Contractor shall develop, implement and maintain a plan for the work with quality assurance and management and control of the construction services. Contractor shall maintain a continuous presence at the work site and an adequate inspection system and perform such inspections as will assure that the work performed conforms to the requirement of the Contract Documents.

CG 8 PERMITS AND FEES.

All Permits or licenses necessary for the performance of the work or required by law or ordinance, including Building permits, shall be secured, maintained, and paid for by the Contractor, unless otherwise provided in the Special Terms. Contractor shall be responsible for all governmental fees, including but not limited to utility fees and connection fees. Owner shall be responsible for obtaining any necessary easements. For construction of a building, Owner shall be responsible for all City of West Palm Beach Construction Services plan and permit review fees

GC 9 PROJECT MANAGER.

To ensure that the work will be performed to the requirements of the Contract Documents, Contractor shall keep during the term of this Agreement a competent Project Manager and any necessary assistants, all satisfactory to the Engineer and Owner. The Contractor shall advise the Engineer, in writing, within ten (10) days after the date of Owner's issuance of a Notice to Proceed, the name and local address of the Project Manager who will be in charge of the project, together with the extent of his authority to represent and act of behalf of the Contractor, along with the Project Manager's cell phone number. The Contractor will ensure that Owner and Engineer shall be able to reach the Project Manager at his cell phone number at all working hours and during emergencies. The Project Manager shall represent the Contractor in his absence and all notices and directions given to him shall be binding as if given to the Contractor. Important directions shall be confirmed on written request in each case. The Contractor shall give sufficient superintendence to the work using a best skill and attention standard. If the Contractor, in the course of the work finds any discrepancy between the permitted drawings and the physical conditions of the locality, or any errors or omissions in the specifications or permitted drawings or in the layout as given by survey points and instructions, he shall immediately inform the Engineer and the Owner, in writing, and the Engineer will review the same and provide corrective instructions, if any are necessary. Any work done after such discovery, until authorized, will be done at the Contractor's risk. Neither party shall employ or hire any employee of the other party without the other party's consent. At any time Owner may request and Contractor shall replace the individual performing as Project Manager with an individual acceptable to Owner.

GC 10 SUBCONTRACTORS AND SUPPLIERS.

a) Unless otherwise required to be specified in Contractor's Bid, within ten (10) days after the date of the Owner's issuance of a Notice to Proceed, the Contractor shall furnish to the Owner in writing the names of the persons or entities (including those who are to furnish materials or equipment fabricated to a special design) whom the Contractor will engage as sub-contractors or suppliers for the Project. The Contractor shall not change such sub-contractors or suppliers without written notice to Owner, and shall not contract with a proposed person or entity to whom the Owner has made reasonable and timely objection in writing, after such notice. The Contractor understands and agrees that the Contractor alone is responsible to the Owner for all of the work under the Contract and that any review of subcontractors, sub-subcontractors or suppliers by the Owner or Engineer will not in any way make the Owner responsible to any subcontractor or sub-subcontractor or suppliers.

b) By appropriate written agreement, the Contractor shall require each Subcontractor, to the extent of the work to be performed by the subcontractor, to be bound to the Contractor by terms of the Contract and Contract Documents, including but not limited to the insurance requirements for workers' compensation and general liability coverage. The Owner shall be named as an intended Third Party Beneficiary in all subcontractor agreements provided such naming shall not create privity of contract between Owner and subcontractor. Each subcontract agreement shall preserve and protect the rights of the Owner under the Contract Documents with respect to the work to be performed by the subcontractor, unless specifically provided otherwise in the subcontract agreement, the benefit of all rights, remedies and redress against the Contractor that the Contractor, by the Contract Documents, has against the Owner. Where appropriate, the Contractor shall require each Subcontractor to enter into similar agreements with sub-subcontractors. The Contractor shall make available to each proposed subcontractor, prior to the execution of the subcontract agreement, copies of the Contract Documents to which the subcontractor will be bound, and, upon written request of the Subcontractor, identify to the Subcontractor terms and conditions of the proposed subcontract agreement which may be at variance with

the Contract Documents. Subcontractors will similarly make copies of applicable portions of such documents available to their respective proposed sub-subcontractors. Contractor shall include in all subcontracts a provision requiring the Subcontractor to consent to an assignment of the subcontractor to the Owner.

- c) All subcontracts shall provide the following exact language”

Sub-contractor “expressly waives any claims for damages which it may suffer by reason of delay caused by events beyond its’ control, including delays claimed to be caused by the City or its Engineer and agrees that its exclusive remedy shall be an extension of its contract time.”

d) The Owner reserves the right to perform construction or operations related to the Project with the Owner's own forces, and to award separate contracts in connection with other portions of the Project or other construction or operations on the site under contract conditions identical or substantially similar to these. If the Contractor claims that delay or additional cost is involved because of such action by the Owner, the Contractor shall make such claim as provided in these General Conditions and Terms. The Contractor shall afford the Owner and separate contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities and shall connect and coordinate the Contractor's construction and operations with theirs as required by the Contract Documents.

e) If part of the Contractor's Work depends for proper execution or results upon construction or operations by the Owner or a separate contractor, the Contractor shall, prior to proceeding with that portion of the Work, promptly report to the Owner apparent discrepancies or defects in such other construction that would render it unsuitable for such proper execution and results. Failure of the Contractor to promptly so report shall constitute an acknowledgment that the Owner's or separate contractors completed or partially completed construction is fit and proper to receive the Contractor's work, except as to defects not then reasonably discoverable.

GC 11 CONTRACTOR MEETINGS

The Contractor shall, at its expense, attend any and all meetings called by the Owner to discuss the work under the Contract. The Owner, or its Engineer, will distribute typed minutes of each meeting to all attendees. Failure of Contractor to promptly object to the typed minutes shall constitute Contractor's agreement with the content of the typed minutes.

GC 12 SCHEDULING.

a) Within ten (10) days after the date of the Owner's issuance of a Notice to Proceed, the Contractor shall prepare and submit to the Owner and to Engineer, for review and approval, a project schedule utilizing the Critical Path Method (CPM) graphically depicting the activities contemplated to occur as a necessary incident to performance of the work required to complete the project, showing the sequence in which the Contractor proposes for each such activity to occur and duration (dates of commencement and completion, respectively) of each such activity. The construction schedule shall be complete in all respects, covering approvals, mobilization and demobilization, construction and Owner occupancy, in addition to activities and interfaces with other Contractors at the work site, offsite activities such as design, fabrication, an allowance for weather delays, submittals, procurement and jobsite delivery of Contractor furnished material and equipment. Contractor agrees to complete the work and Project in accordance with the agreed construction schedule as amended by approved and duly executed change orders.

b) At the end of each calendar month, Contractor shall prepare a separate construction schedule, formatted to fit in a three-ring binder, to show the actual progress of the work performed and the occurrence of all events which have affected the progress of performance of the work already performed or will affect the progress of the performance of the work yet to be performed, in contrast with the CPM schedule and planned progress of performance of such work. Each such schedule shall be submitted to the Owner and Engineer. Failure of the Contractor to prepare and submit the monthly construction schedule(s) as aforesaid shall be sufficient grounds for the Owner to find the Contractor in material default and shall be sufficient cause to terminate the Contract or to withhold payment to the Contractor until a current monthly schedule is submitted.

c) The Contractor agrees that whenever it becomes apparent from the progress review meeting or CPM schedule that the contract completion date will not be met, the Contractor shall notify the Owner and Engineer of the potential schedule change within three (3) days of a commencement of delay or knowledge of a potential delay. Prior to requesting a time extension, Contractor shall execute some or all of the following remedial actions at Contractor's sole cost and expense:

1. Increase manpower as necessary to eliminate work backlog.

2. Increase the number of working hours per shift, shifts per working day, working days per week, construction equipment, or any combination of the foregoing to eliminate the backlog.
3. Reschedule the work in conformance with specification requirements.

d) Neither the Owner nor the Contractor shall be considered to own the schedule float time.

GC 13 LIQUIDATED DAMAGES.

If the actual completion date for substantial completion or final completion occurs later than the time indicated in the Special Terms or later than the scheduled completion date if a duly authorized change order for time is issued, liquidated damages in the amount(s) set forth in the Special Terms shall be paid by Contractor for unexcused delay in performance of the work. Contractor agrees that Owner's actual damages in the event of unexcused delay are difficult to ascertain and therefore the parties agree that the sums established in the Special Terms are reasonably related to what damages Owner may suffer and are enforceable liquidated damages and not penalties. Notwithstanding the above, Contractor agrees that liquidated damages do not include additional costs invoiced by consulting Engineer to Owner for extended engineering services arising out of an unexcused delay, and Contractor agrees to reimburse Owner for such actual engineering costs incurred in addition to payment by Contractor of any liquidated damages.

GC 14 SCHEDULE OF VALUES.

Within ten (10) days after the date of the Owner's issuance of a Notice to Proceed, Contractor shall submit for review and approval of Owner and Engineer, a schedule of values, by phases of work, to show a breakdown of the Contract Price corresponding to the payment request breakdown and progress schedule line items. The schedule of values must also show dollar value for each unit of work scheduled. Change Orders are to be added as separate line items.

GC 15 LAND FOR WORK.

Contractor's access to the site and storage areas shall be as shown on the permitted drawings and as designated by the Owner. Access routes may also be used by Owner and its employees and other contractors. No other access points shall be allowed unless approved by the Owner. All contractor traffic authorized to enter the site shall be experienced in the route or guided by contractor personnel. The Contractor is responsible for immediate cleanup of any debris deposited along the access route as a result of its construction traffic. In the event the Owner provides conditions or reasonable restrictions on the use or access to the lands upon which or adjacent to which the work is to be done, Contractor shall comply with all such conditions or restrictions. Any delay in the furnishing of these lands by the Owner shall be deemed proper cause for an equitable adjustment in both Contract price and time of completion.

Owner, and its duly authorized employees and representatives, and representatives of all governmental agencies having jurisdiction over work areas or any part thereof, shall, at all reasonable times, have access to such areas and the premises used by Contractor. Contractor shall also arrange for Owner, its representatives and employees, to have access at all reasonable times to all places where equipment or materials are being manufactured, produced or fabricated for use under the Contract.

GC 16 SURVEY, LINES AND GRADE

Unless otherwise specified, the Engineer shall furnish all land survey control points, base lines and benchmarks for the location of the work. The Contractor shall be responsible for the preservation of all lines, points, and elevations furnished and shall bear the expense of resetting same if Contractor or any of its subcontractors move or destroy or render inaccurate any such base lines, points and elevations. From the information provided by the Engineer, the Contractor shall develop and make all detail surveys and establish lines and grades as required. The Contractor shall keep the Engineer informed as to its needs for base lines or benchmarks in order that the same may be furnished and all necessary measurements made for the record with a minimum of inconvenience to the Engineer or delay to the Contractor.

GC 17 SITE CONDITIONS.

Contractor shall have the sole responsibility of satisfying itself concerning the nature and location of the work and the general and local site conditions, and particularly, but without limitation, with respect to the following: conditions affecting the transportation, access, disposal, handling and storage of materials, equipment and construction machinery; the availability, quantity and quality of labor, water and electric power; availability and condition of roads; climatic conditions; location of underground utilities; existing site conditions, topography and ground conditions; subsurface geology, and nature and quantity of surface and subsurface materials to be encountered; and all other matters which can in any way affect the performance of the Contract or the cost

associated therewith. Contractor's failure to assess the site conditions will not relieve it from the responsibility for properly estimating the costs and schedule of performing the work.

GC 18 SUBSOIL CONDITIONS.

Unless otherwise stipulated in the specifications and drawings, no subsoil investigations have been made. The Contractor shall satisfy itself as to all subsoil conditions.

GC 19 SURFACE AND SUBSURFACE WATER

Contractor shall obtain all permits required from each applicable regulatory agency with respect to the control of surface and subsurface water by Contractor during the work, with copies submitted to Owner. Contractor shall immediately remedy any permit violations and shall be responsible for any damages, remediation, fines or penalties assessed by such agencies for permit violations.

GC 20 CONTRACTOR WORK AREA

Contractor's work area on the job site will be assigned by Owner. Contractor shall confine its office, storage, assembly, equipment and parking to the areas so assigned. Should Contractor find it necessary to use any additional land outside the work site for any purpose, Contractor shall, at its expense, provide for the use of any such additional land.

GC 21 CONTRACTOR-FURNISHED MATERIALS, EQUIPMENT AND WORKMANSHIP

Contractor shall provide and use on the work only such construction plant, machinery and equipment as are capable of producing the quality and quantity of work and materials required by the drawings and specifications within the established schedule. Only new, unused materials, equipment and items of recent manufacture, of designated quality, free from defects, will be accepted. Contractor shall, if requested, furnish evidence satisfactory to the Owner as to the kind, quality and manufacturer of materials. Upon written order of the Owner, Contractor shall discontinue operation of unsatisfactory plant, machinery, equipment and/or facilities. Owner will be the final authority for determining conformance of workmanship, materials, equipment and systems with the requirements of the Contract Documents.

Where Contractor supplied drawings are required for planning or performance of the work, such drawings shall include, but not be limited to, matchmarks, erection diagrams and other details such as field connections for property installation. Such drawings shall be submitted by and at the expense of Contractor. At least 21 days shall be allowed for review by Owner. If drawings show variations from the contract requirements, the Contractor shall describe such variations in writing at the time of submission. Review and permission to proceed by Owner does not constitute acceptance or approval of design details, calculations, analyses, test methods or materials develop or selected by the Contractor and does not relieve Contractor from full compliance with the Contract Documents.

Where samples are required, samples shall be submitted by and at the expense of Contractor. Materials represented by such samples shall not be manufactured, delivered to the site or incorporated into the work without such review. At least 21 days shall be allowed for Owner's review.

The Owner or Engineer shall notify the Contractor of defective or unacceptable work if the Owner or Engineer discovers such. No work defective in construction or quality, or deficient in meeting any requirement of the Contract, drawings or specifications, will be acceptable regardless of Owner's failure to discover such defects during construction; nor will inspection by the Engineer relieve Contractor from ensuring the quality of the work as required by the Contract. No payment, whether partial or final, shall be construed as an acceptance of defective or unacceptable work or improper materials and equipment.

GC 22 FLORIDA LUMBER

Whenever available, Contractor shall use lumber, timber and other forest products produced and manufactured in Florida provided the price, fitness and quality of such products are equal to substitute products. (F.S. 255.20(3))

Contractor shall comply with the requirements of the Owner and its insurance carriers and all applicable laws, codes and regulations with respect to prevention of damage.

Contractor shall preserve and protect all cultivated and planted areas and vegetation such as trees, plants, shrubs and grass on or adjacent to the premises, which, as determined by Owner, do not reasonably interfere with the performance of the work. Contractor shall be responsible for damage to any such areas and vegetation and for unauthorized cutting of trees and vegetation. Contractor shall leave all adjacent property in a good condition as it was prior to beginning of the Contract. All costs in connection with any repairs or restoration necessary or required as a result of damage shall be borne by Contractor.

Where practical, Contractor shall erect a temporary fence around the work site. Contractor shall prepare and maintain accurate reports of incidents of loss, theft or vandalism and shall furnish these reports to Owner within three (3) days of each incident.

Until final acceptance of the work by the Owner, the Contractor shall have full and complete charge and shall bear all risk of loss of, and injury or damage to, the work performed under this Contract, or any portion thereof, including materials and equipment, and Owner-furnished supplies and equipment, from any cause whatsoever. Contractor shall rebuild, repair, restore and make good any damages, injury, or loss to the work and to the property of the Owner or third parties, except such as may be directly due to errors in the Contract Documents which the Contractor could not have discovered through due diligence, or caused by agents or employees of the Owner, unless such loss or damage would be covered by any policy of insurance maintained by the Contractor.

GC 24 UTILITIES

The Contractor shall, at its expense, arrange for, develop and maintain all utilities in work areas, including, but not limited to: construction power, water as required throughout construction, and telephone service, if needed. Prior to final acceptance of the work, Contractor shall, at its expense, remove all temporary utilities. Contractor shall conduct its operations so as not to damage, close or obstruct any utility installation, highway, road or other property until permits therefore have been obtained.

GC 25 DELIVERY UNLOADING AND STORAGE

Contractor shall, at its expense, receive, unload, store in a secure place, and deliver from storage to the construction site, all materials, plant and equipment required for the performance of the Contract. Material and equipment subject to degradation by outside exposure shall be stored in a weather-tight enclosure provided by Contractor at its expense.

GC 26 FIRE PROTECTION

All necessary precautions to avoid and eliminate fire hazards shall be the responsibility of the Contractor. Contractor shall provide portable fire extinguishers, properly labeled, located and compatible with the hazard of each work area and shall instruct personnel in their use.

GC 27 ILLUMINATION

When any work is performed when daylight is obscured or at night, Contractor shall, at its expense, provide artificial light sufficient to permit work to be carried on satisfactorily and safely.

GC 28 DUST CONTROL

For the duration of the contract, the Contractor shall, at its expense, maintain all excavations, roads, plant sites, borrow areas and all other work areas free from dust. Code-required or industry-accepted methods of dust control suitable for the area involved and approved by Owner will be permitted.

GC 29 POLLUTION CONTROL

Contractor shall, at its expense, perform its work so as not to discharge into the atmosphere, any body of water, the ground or groundwater, from any source, smoke, dust or other contaminants in violation of the laws, rules, regulations and orders of all federal, state and local air, ground and water pollution requirements (collectively the "Discharge Law"). Contractor shall, at its expense, provide suitable facilities to prevent any such discharges. In the event of a discharge which results in contamination of the site, Contractor shall immediately notify Owner and the appropriate governmental authority and shall take whatever action is necessary, required by Discharge law or desirable to remediate the contamination at Contractor's sole expense, including but not limited to the payment of fines, penalties and damages. Contractor shall indemnify and hold harmless Owner from any expense, fine, penalty, obligation, action or liability resulting from such discharge and remedial actions.

GC 30 DEBRIS DISPOSAL

All debris shall be legally disposed of at licensed disposal site(s).

GC 31 EXPLOSIVES AND HAZARDOUS MATERIALS

Contractor shall obtain all required federal, state and local permits and licenses and shall be responsible for the safe and proper handling, transportation, storage and use of any explosive or hazardous material brought onto or encountered with in the site. The Contractor will notify the Owner immediately if explosive or hazardous materials are encountered on the site. Contractor shall maintain and post as necessary, Material hazard Data Sheets for all applicable hazardous materials used in the course of the work. In the event that hazardous material is improperly handled or stored by the Contractor or its sub-contractors, which results in contamination of the site, Contractor shall immediately notify the Owner and the appropriate governmental authority and shall take whatever action is necessary, required by law, regulation or order, or desirable to remediate the contamination at the Contractor's sole cost and expense. Contractor shall indemnify and hold harmless the Owner from any expense, fine, penalty or obligation, action or liability resulting from such contamination and remedial actions.

GC 32 RIGHT-OF-WAY PERMIT; TRAFFIC PLANS. Contractor shall obtain a City of West Palm Beach right-of-way permit for each required road closure. As part of the requirements of the permit, Contractor shall submit for Owner's review and approval, signed and sealed detailed Maintenance of Traffic (MOT) plans for each phase of the work. During the times Contractor is working in the Project area, Contractor shall utilize flagmen, traffic control devices and variable message boards on a full time basis, where and when needed, to facilitate the movement of traffic along and around the Project. All MOT plans shall be reviewed and approved by Owner prior to implementation of work by Contractor.

GC 33 LABOR

Contractor shall employ only competent and skilled personnel to perform the work. Contractor shall, if requested by Owner, remove from the jobsite any personnel of Contractor who is determined by Owner to be unfit or working in violation of any provision of the Contract. Contractor and all subcontractors shall be bound by and comply with all applicable Federal, State and local laws regarding labor. All work performed after regular working hours, on Sundays or legal holidays, shall be performed without additional expense to Owner.

GC 34 SAFETY

Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the work. Contractor will provide to each worker on the job site the proper safety equipment for the duties being performed by the worker and will not permit any worker on the job site who fails or refuses to use the safety equipment. Contractor shall provide and maintain all necessary watchmen, barricades, warning lights, and signs and take all necessary precautions for the protection of all persons involved in the work, the public, and all employees or representatives of Owner. All work and all equipment, machinery, materials and tools shall be in compliance with and conform to all applicable laws, ordinance, rules and regulations.

GC 35 PROGRESS

During construction, Contractor shall keep a marked-up and up-to-date set of drawings showing as-built conditions on the site as an accurate record of all deviations between work as shown and work as installed. These drawings shall be available to Owner and Engineer for inspection at any time.

During construction, Contractor shall keep a marked-up and up-to date set of specifications showing as-is conditions on the site annotated to clearly indicate all substitutions or product selections that are incorporate into the work. These specifications shall be available to Owner and Engineer for inspection at any time.

Contractor shall be required to submit to Owner, on a monthly basis, two (2) copies of 8 1/2"x 11" color photos indicating the progress of the work identifying the dates that the work was performed. Contractor shall maintain current as-built surveys that indicate the completion of the work by Contractor and its subcontractors available for inspection at the project site.

If at any time Contractor's actual progress is inadequate to meet the completion time requirements of the Contract and this lack of progress is the sole fault of the Contractor, Owner may so notify Contractor who shall thereupon, at its expense, take such steps as may be necessary to improve its progress to meet the approved schedule. If within a reasonable period as determined by Owner, Owner determines that Contractor is not prosecuting its work with such diligence as will assure completion with the times scheduled and Contractor fails to take reasonable actions to timely cure, Owner may declare a default of this Contract.

GC 36 INSPECTION.

Owner, Engineer and their representatives shall at all times have access to the work whenever it is in preparation or progress, and Contractor shall provide proper facilities and personnel to facilitate such access and inspection. If the specifications, the Engineer's instructions, applicable laws, ordinances, or any public regulatory entity require any work to be specially tested or approved, Contractor shall give the Engineer timely notice of its readiness for observation and, if the observation is by another entity other than the Engineer, of the date fixed for such observation. If any work should be covered up prior to any inspection or test by Owner or Engineer, it must, if required by the Engineer, be uncovered for inspection and properly restored at Contractor's expense.

GC 37 TESTING

Unless otherwise provided in the Contract, drawings or specifications, shop testing of material, equipment or work shall be performed by Contractor at its expense and in accordance with the technical specifications. Should tests in addition to those required by the specifications be desired by Owner, Contractor will be advised in reasonable time to permit such additional testing at Owner's expense, unless additional tests are required due to Contractor's work or materials having failed any initial test. Contractor shall furnish samples as requested and shall provide reasonable assistance and cooperation necessary to permit tests to be performed on materials or work in place, including reasonable stoppage of work during testing.

GC 38 SUBSTITUTION.

The naming of a specified product of specific manufacturers for equipment or materials under the various items of specifications or as shown on the plans shall be interpreted as establishing a minimum standard of quality and performance. It shall not be construed as eliminating the selection of other than the named equipment or materials equal to those specified, unless the equipment or materials are specifically designated as not permitting substitution. If Contractor objects to equipment or materials specifically designated as not permitting substitution as not being suitable for the work, Contractor shall promptly notify Engineer in writing, absent which, Contractor shall be deemed to accept the suitability of such equipment or materials for the work. Upon receipt of a timely objection notice, Engineer shall review the objection and render a determination to Contractor of whether a substitute will be permitted.

Prior to proposing any substitute item, Contractor shall satisfy itself that the item proposed is equal or better to that specified, that such item will fit into the space allocated, that such item affords comparable ease of operation, maintenance and service, that the appearance, longevity and suitability for the climate are comparable, that by reason of costs savings, reduced construction time or similar demonstrable benefit, the substitution of such item will be in Owner's interest and will in no way detrimentally impact the project schedule. The burden of proof that such an item offered is equal in all respects to that specified shall be Contractor's. Contractor shall submit drawings, samples, data and additional information as may be required by Owner. All requests for substitutions, with supporting information, shall be submitted by and at the expense of Contractor. At least 35 days shall be allowed for Owner's review.

Owner or its Engineer shall make the determination as to the acceptability of any substitution. Approval of a substitution shall not relieve Contractor from the responsibility for compliance with all requirements of Contractor. Contractor shall coordinate the change with all trades and bear the expense for any changes in other parts of the work caused by any substitution.

Contractor may make only two requests for substitution in the same category and Contractor shall be invoiced the expenses incurred by Owner for its design professionals in reviewing additional substitution requests, unless otherwise approved by Owner.

GC 39 CORRECTION OF DEFECTIVE MATERIALS, EQUIPMENT OR WORKMANSHIP

If any material, equipment or workmanship is determined by Owner, either during performance of the work, during final quality inspection or during the warranty period, to be defective or non in compliance with the specifications and the Contract, Owner shall notify Contractor in writing that such material, equipment or work is rejected and Owner reserves the right to withhold payment on any such item. Contractor shall, at its own expense, immediately remove and replace or correct such defective material, equipment or work by making the same strictly comply with all requirements of the drawings, specifications and contract. If Owner or Engineer deems it inexpedient to correct work that has been damaged or that was not performed in accordance with the drawings, specifications and contract, an equitable deduction from the contract price shall be made for such work.

GC 40 CORRECTION OF WORK.

Contractor shall promptly remove from the premises all materials and equipment condemned by the Engineer as failing to meet contract requirements whether incorporated in the work or not, and Contractor shall promptly replace and re-execute his own work in accordance with the Contract and without expense to Owner and shall bear the expense of making good all work of other Contractors destroyed or damaged by such removal or replacement. Contractor further agrees to correct all work found by Owner to be defective or not in conformance with the drawings and specifications for a period of one year from the final certificate of occupancy for the project (or equivalent) or for such longer periods of time as may be set forth with respect to specific warranties contained in the trade sections of the specifications Contractor shall commence final completion of nonconforming work and correction of the work within seven (7) days of written notice by Owner and shall diligently perform all such work in compliance with the objective standards commonly found in the construction industry of Palm Beach County, Florida. If the Engineer or Owner deems it inexpedient to correct work that is defective or that was not done in accordance with the Contract, an equitable deduction from the Contract price shall be made therefore.

GC 41 OWNER'S RIGHT TO CORRECT OR COMPLETE WORK.

If Contractor should neglect to prosecute the work diligently in accordance with the Contract Documents or fail to correct defective or nonconforming work or fail to perform any provisions of the Contract Documents, Owner may, after three (3) calendar days written notice and opportunity to cure to Contractor, without prejudice to any other remedy Owner may have, make good these deficiencies and may deduct the cost thereof from the payment then or thereafter due Contractor.

GC 42 CHANGES IN WORK.

Owner, without invalidating the Contract Documents may order written additions to or deductions from the work, the Contract price being adjusted accordingly. The Engineer, with the consent of the City, will have authority to make minor changes in the work not involving extra cost, and not inconsistent with the purpose of the work. If Contractor believes that a variation or change justifies a modification in the Contract price, Contractor may submit a request for change order at its expense. If a request for change order is made, Contractor is not authorized to vary the work unless a written Change Order or written Construction Change Directive is issued by the Engineer and executed by Owner. No change order shall be valid unless executed by the authorized signatory of Owner. The Engineer is not authorized to bind Owner to change in contract price or time. Contractor shall notify the Engineer in writing within seven (7) days of any occurrence which, in the opinion of Contractor, entitles it to claim an adjustment of the Contract price or a time extension, absent which notice, Contractor shall have waived such claim. The Engineer will provide a response to Contractor and Owner with respect to a request for change order within a reasonable amount of time after receipt of Contractor's notice and all necessary backup information required by Engineer to formulate a response. For the purposes of this paragraph, a day shall be defined as any business day, Monday through Friday, excluding holidays. The Engineer and Owner may issue an executed change order authorizing any changes in the work, adjustments in the Contract price and extensions of time. Execution of any Change Order by the parties shall constitute a final settlement and release by Contractor of all matters relating to the claim or change in the work which is the subject of the Change Order, including, but not limited to, all direct and indirect costs associated with such change and any and all adjustments to the Contract price and the Contract time.

If a change order is not yet approved or cannot be agreed upon, Contractor is authorized, upon issuance of a written Construction Change Directive (CDD) prepared by the Engineer and approved by Owner, to proceed with such change on a time and material basis plus ten percent (10%). Contractor expressly acknowledges that commencing work without a written Change Order or Construction Change Directive executed by Owner in advance of commencement of work waives any claim by Contractor to an adjustment to the Contract Price and the Contract Time.

Upon approval by Engineer and Owner as to any adjustments to the Contract Price and/or Contract Time for changes performed under a CDD, such approval shall be recorded by the preparation of a change order. Contractor shall not seek payment for work performed pursuant to a CDD until it has been converted to a change order.

The Engineer shall have the authority to order minor changes in the work which do not involve adjustment to the Contract Price or Time and which are not inconsistent with the intent of the contract documents.

A bond rider from the Surety shall be submitted to the Owner with each change order that increases the Contract Price.

GC 43 USE OF COMPLETED PORTIONS.

Owner shall have the right to take possession of and use any substantially completed portions of the work. Such use by Owner shall not be construed as constituting final acceptance, and shall neither relieve Contractor of any of its responsibilities under the Contract, nor act as a waiver by Owner of any Contract Documents provisions; provided that Contractor shall not be liable for any repair or maintenance required due to ordinary wear and tear resulting from such use. However, if, in the opinion of Engineer, such use increases the cost or delays the completion of remaining portions of work, Contractor shall be entitled to an equitable adjustment under the contract.

GC 44 CLEANING UP.

Upon completion of any portion of the work, Contractor shall remove at his own expense from Owner's property all temporary structures, equipment and surplus materials not required for later stages of work, rubbish, and waste materials resulting from his operations. Contractor shall make its own arrangements, at its own cost, for disposal of rubbish and waste materials. Owner reserves the right to retain any surplus or salvage materials.

CG 45 BASIC REQUIREMENTS PRIOR TO SUBSTANTIAL COMPLETION

The following items shall be completed as a condition precedent to substantial completion and prior to a request by Contractor for inspection for substantial completion. In the event the Contract Documents do not define substantial completion, the following are also conditions for final completion and acceptance:

1. All general construction completed and the project components shall be clean and all systems fully functional.
2. All mechanical and electrical work substantially complete, fixtures in place, connected, cleaned, fully functional and ready for use.

It is agreed that the Engineer shall have the right to finally determine the amount currently due to Contractor. Contractor may present to Owner a payment request for up to one-half of the retainage held by Owner. If Owner has grounds under Florida law to continue to retain all or a portion of the requested retainage, Owner may continue to hold such retainage.

GC 49.7 Final payment may be made to certain select Sub-contractors whose work is satisfactorily completed prior to the total completion of the Project but only upon advance written approval of Owner and Surety.

GC 50 LIENS & RELEASES OF LIENS.

Surety shall be bound by the warranty or warranties contained in the contract documents and shall be responsible for any and all warranty obligations or damages as a result of latent defects or deficiencies in

If Contractor should be adjudged bankrupt, or if he should make a general assignment for the benefit of his creditors, or if a receiver should be appointed on account of his insolvency, or if he should persistently or repeatedly refuse or should fail, except in cases for which extension of time is provided, to maintain an established schedule (30 days behind a critical path activity), to supply enough properly skilled workmen or proper materials; or if he should fail to make prompt payments to subcontractors or for material, equipment or labor or persistently disregard laws, ordinances or the instructions of the Engineer, or otherwise fails to conform to the Contract requirements or abandons or refuses to perform any work, Owner may without prejudice to any other right or remedy, and after giving Contractor and its Surety seven (7) calendar days written notice, terminate the employment of Contractor and take possession of the premises and of all materials, equipment, tools and appliances thereon, and finish the work by whatever method Owner may deem expedient. In such case, Contractor shall not be relieved from any of its obligations under the Contract Documents, and shall not be entitled to receive any further payment until Contractor cooperates with Owner and complies with all reasonable requests regarding the terminated work, and the work is finished. In no event shall Contractor receive any payment for work finished by Owner. If the unpaid balance of the Contract Price shall exceed the expense of finishing the work, including compensation for additional managerial and administrative services, this excess shall be paid to Contractor. Reasonable termination expenses incurred by Owner may be deducted from any payments left owing Contractor (excluding monies owed Contractor for subcontract work). If Contractor's surety is directed or agrees to complete the work, then all payments due after termination shall be made to the Surety until the work is finished and the Contract Price has been expended. The Surety shall then be responsible for all of the obligations and duties of Contractor under the Contract Documents and shall be bound by the conditions of the Contract Documents, this Contract and the Bond to fulfill all obligations of the Contract Documents for the Contract price in effect as of termination. The Surety may not assign those obligations without the written consent of Owner. Contractor and its surety shall be jointly and severally liable for all costs in excess of the Contract price for completion of the work and for liquidated damages. If, upon termination for cause it is determined that Contractor was not in default, the rights and obligations of the parties shall be as if the notice of termination has been issued for Owner's convenience.

GC 56 SUSPENSION OR TERMINATION BY OWNER FOR CONVENIENCE.

Owner may, at any time, without cause, order Contractor in writing to suspend, delay or interrupt the work in whole or in part for such period of time as Owner may determine, or to terminate all or a portion of the Contract for Owner's convenience. Upon such termination, the Contract Price earned to the date of termination shall be paid to Contractor, but Contractor waives any claim for damages, including loss of profits arising out of or related to the early termination. Those Contract provisions which by their nature survive final acceptance shall remain in full force and effect. If Owner orders a suspension, the Contract price and Contract time shall be adjusted for increases in the cost and time caused by suspension, delay or interruption. No adjustment shall be made to the extent that performance is, was or would have been so suspended, delayed or interrupted by another cause for which Contractor is responsible; or that an equitable adjustment is made or denied under another provision of this Contract.

GC 57 CONTRACTOR OBLIGATIONS UPON TERMINATION.

Upon receipt of written notice from Owner of termination, Contractor shall cease operations as directed by Owner in the notice; take actions necessary, or that Owner may direct, for the protection and preservation of the work; and except for work directed to be performed prior to the effective date of termination stated in the notice, terminate all existing subcontracts and purchase orders and enter into no further subcontracts and purchase orders; and turn over all marked up drawings and specifications showing progress to date. Owner may assume and become liable at its sole discretion for obligations, commitments and unsettled contractual claims that Contractor has previously undertaken or incurred in good faith in connection with said Project. Owner shall reimburse Contractor for any unpaid and earned Cost of the Project as of the date of termination, less damages or setoffs applicable under the Contract Documents. Contractor shall, as a condition of receiving the payments referred to herein, execute and deliver all such papers and take all such steps including the legal assignment of his contractual rights, as Owner may require for the purpose of fully vesting in him the rights and benefits of Contractor under such obligations or commitments.

GC 58 REMOVAL OF EQUIPMENT AND MATERIALS.

In the case of termination of this Contract before completion, from any cause whatsoever, Contractor, if notified to do so by Owner, shall promptly remove any part or all of its equipment, materials and supplies from the property of Owner, failing which Owner shall have the right to remove such equipment, materials and supplies at the expense of Contractor.

GC 59 WARRANTY.

Contractor shall warrant that all materials and equipment included in the work will be new except where indicated otherwise in Contract Documents, and that such work will be of good quality, free from improper workmanship and defective materials and in conformance with the Contract Documents. Contractor warrants all equipment, materials and labor furnished against defect in design, materials and workmanship for a period of twelve (12) months from Final Payment, unless longer warranties are provided in the Contract Documents in which case the longer period prevails. Contractor shall collect, assign and deliver to Owner any specific written warranties given by others as required by the Contract Documents. Notwithstanding any provisions in the Contract Documents to the contrary, this express warranty shall commence on the date Owner obtains the final certificate of occupancy for the Project (or equivalent). Contractor shall conduct, at its expense, with Owner and Engineer, a warranty inspection prior to expiration of the warranty period(s). Upon receipt of Notice from Owner of failure of any part of the guaranteed equipment or materials during the guarantee period, the defective equipment parts or materials shall be replaced promptly with new equipment parts (or new equipment) and materials by Contractor, at no expense to Owner.

GC 60 ROYALTIES AND PATENTS.

Contractor shall pay for all royalties and license fees. Contractor indemnifies and shall defend and hold Owner and its representatives harmless from and against all claims, obligations, losses, costs, damages and expenses, including attorney fees in connection with any claims or actions based upon infringement of any patent arising out of the use of any materials or equipment or processes furnished or employed by Contractor under the Contract.

GC 62.4 Assignment. Contractor shall not assign the Contract as a whole or in part without the written consent of Owner, nor shall Contractor assign any monies due or to become due to him hereunder without the previous written consent of Owner and its surety. Assigning the Contract shall not relieve Contractor or his surety from any contract obligations.

GC 62.5 Specific Waiver. Any waiver issued by Owner of any provision of the Contract Documents shall only be effective if issued in writing by Owner and shall be specific, shall apply only to the particular matter concerned, and shall not apply to other similar or dissimilar matters.
