Currie Park, thirteen (13) acres sited directly on the Intracoastal Waterway, is getting a world-class \$35 million redesign. The City intends to maintain the Currie Park improvements and retain an operator to ensure professional operation and programming of Currie Park. The City intends to create a special district with a board to provide oversight of the operation of Currie Park.

The City intends that such a special district will assess the properties located within the special district to provide funding for the maintenance and operation of Currie Park.

The properties in the neighborhood surrounding Currie Park will benefit from their close proximity to Currie Park.

RESOLUTION NO. 41-26: A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF WEST PALM BEACH, FLORIDA, APPROVING AN AGREEMENT WITH 550 QUADRILLE LLC REGARDING COMPLETION OF CONSTRUCTION OF THE ONE WEST PALM PROJECT; PROVIDING AN EFFECTIVE DATE AND FOR OTHER PURPOSES.

Background Information:

At the request of 550 Quadrille LLC (the "Developer"), the City amended its Zoning and Land Development regulations to provide incentives for the development of Class A office space and hotel uses in the Quadrille Business District. The Developer took advantage of the height incentives and obtained approval for the mixed-use project known as "One West Palm", consisting of two (2) towers and a podium with Class A office space, hotel, and luxury residential uses.

The Developer commenced construction of One West Palm in 2019, with an anticipated completion date of 2022. However, for a variety of reasons and several delays, One West Palm has been under construction for six (6) years and remains unfinished as of this date.

One West Palm is a highly visible project from many areas of the downtown, Nora and Northwood districts, yet remains unfinished. The City will not receive property taxes, sales taxes, and other revenue projected to be generated from One West Palm until the project is completed. The City and the general public will benefit from the expeditious completion of the Project.

At the request of the City, the Developer agrees to commit to completion of One West Palm and agrees that if the City has not received an application for a temporary Certificate of Occupancy for both towers no later than December 31, 2027, the Developer agrees to pay to the City as liquidated damages, and not as a penalty, the sum of Five Million Dollars (\$5,000,000).

Staff Recommended Motion:

Approve Resolution No. 22-26 and Resolution No. 23-26(F).

Background Information:

49th Street is a residential roadway that serves as a connector between North Flagler Drive and Greenwood Avenue and provides access to St. Mary's Medical Center. The segment of 49th Street between Pinewood Avenue and Broadway Avenue currently lacks sidewalks and ADA-accessible facilities, resulting in residents and children walking along a heavily traveled roadway with limited separation from vehicular traffic.

In 2018, this segment of 49th Street was identified in the City of West Palm Beach Citywide Bicycle Master Plan as a recommended Bike Boulevard. Based on this designation, the City identified 49th Street as a suitable candidate for a Transportation Alternatives (TA) Grant. TA Grants are administered by the Palm Beach Transportation Planning Agency (TPA) and are intended to fund projects that improve safety and accessibility for non-motorized users, including pedestrians and bicyclists, and implement traffic calming measures.

In 2022, the City of West Palm Beach applied for a TA Grant with the TPA under Resolution No. 84-22 for improvements along 49th Street (the Project). The proposed Project includes the replacement of existing sidewalks with ADA-compliant sidewalks and ramps, installation of traffic calming devices, and bicycle safety enhancements. The TPA awarded the grant to the City and included the Project on its Priority Project List for Fiscal Years 2024 through 2028.

The proposed Project includes the following improvements:

1. Replacement of Existing Sidewalks with ADA-Compliant Sidewalks and Ramps

Existing sidewalks will be replaced with ADA-compliant sidewalks and ramps along 49th Street between Broadway Avenue and North Flagler Drive to provide a safe and accessible pedestrian facility.

2. Traffic Calming Improvements

Traffic calming improvements include:

- Installation of speed humps between Broadway Avenue and Pinewood Avenue;
- Reconstruction of the traffic circle at the intersection of 49th Street and Pinewood Avenue; and

- Replacement of existing speed humps between North Flagler Drive and Broadway Avenue to meet current standards.

3. Shared Use Paths for Pedestrians and Bicyclists

Two shared-use paths will be constructed between Greenwood Avenue and Broadway Avenue to provide a continuous, accessible corridor for pedestrians and bicyclists of all ages and abilities.

4. Bicycle Shared-Lane Markings

Bicycle shared-lane markings (“sharrows”) will be installed between Broadway Avenue and North Flagler Drive to enhance bicyclist visibility, promote safe passing by motorists, and improve connectivity within the City’s bicycle network.

5. Milling and Resurfacing

Milling and resurfacing will be completed along 49th Street between North Flagler Drive and Greenwood Avenue.

The Local Agency Program (LAP) Agreement provides funding assistance in the total amount of \$327,392 for the project. In accordance with the agreement, the City is required to provide a local match in the amount of \$1,911,662. The required match is fully funded through the One-Cent Sales Tax Capital Improvements Fund, and no additional General Fund resources are required.

Resolution No. 22-26 accepts the FDOT funding, authorizes the project, and approves the LAP agreement with FDOT.

Resolution No. 23-26(F) recognizes and appropriates the FDOT LAP agreement funding in the amount of \$327,392 and the City match requirement of \$1,911,662.

Commission District 1: Commissioner Cathleen Ward.

Staff Recommended Motion:

Note:

Pursuant to Section 22-31(27) of the Code of Ordinances, the property exchange shall be approved by a super majority (4/5) vote of the City Commission at either First or Second Reading, and

Pursuant to Section 22-31(27) of the Code of Ordinances, waiver of appraisals shall be unanimously approved by vote of the City Commission.

Background Information:

The City adopted Ordinance Nos. 4963-21, 4964-21, and 5085-24, increasing the maximum allowable heights within the Currie Mixed Use District (CMUD) zoning district, and amended the City's Zoning Map to rezone properties within CMUD.

In accordance with Section 94-215(k)(2)(i), parcels within the CMUD Core 1A sub-district located on either side of the Northwood Road extension, can achieve a maximum height of 350 feet in exchange for the payment of no more than \$6 million and the dedication of the right of way for the construction of the Northwood Road Extension (the "Northwood Road Height Bonus").

The design of Currie Park contemplates the new entrance to Currie Park to line up with an eastward extension of Northwood Road from North

Dixie Highway to the future entrance of Currie Park (the “Northwood Road Extension”).

The City desires to construct the Northwood Road Extension, as well as a linear park adjacent to the south and along the full length of the Northwood Road Extension, over a portion of the land owned by the City commonly known as Joel T. Daves Park and certain land currently owned by developer entities located at 2323 N. Flagler Drive, West Palm Beach.

The Developer desires to achieve the maximum height of 350 feet for the Developer’s parcels, which will be located on either side of the Northwood Road extension through the Northwood Road Height Incentive.

The City and the Developer have agreed on certain arrangements involving: (a) the Developer conveying to the City a portion of its property in order to permit the City to construct the Northwood Road Extension and adjacent linear park; (b) the City conveying to the Developer a portion of Joel T. Daves Park; (c) the City abandoning Lake Place, Kent Terrace, and portions of the Bethesda Terrace rights-of-way; (d) the Developer paying \$6 million for the Northwood Road Extension; and (e) the City granting certain development approvals.

Planning staff evaluated the proposed abandonment of Lake Place, Kent Terrace, and portions of the Bethesda Terrace rights-of-way pursuant to the criteria contained in Section 78-217 of the City’s Code of Ordinances and recommends approval of the abandonment.

The public hearing was advertised in the Palm Beach Post. Individual notices of the public hearing were mailed to all property owners within 400 feet of the proposed abandonments, and signs were posted in accordance with Section 78-215 of the City’s Code of Ordinances.

The following Developer entities own the properties subject to the Northwood Road Height Incentive: 1031 South Wooster Limited, 2104 Cahuenga Partners LP, Little Broad Beach Partners LP, 6622 Hollywood Boulevard Partners LP, and 920 N Stanley Partners LLC.

Ordinance No. 5151-25 approves the following: (a) acceptance of the property conveyed by the Developer in order to permit the City to construct the Northwood Road Extension and adjacent linear park; (b) Conveyance by the City to the Developer of a portion of Joel T. Daves Park; (c) the roadway abandonment of Lake Place, Kent Terrace, and portions of the Bethesda Terrace rights-of-way; (d) payment of \$6 million to the City by the Developer to be used for the Northwood Road Extension project; (e) the City granting certain development approvals; and (f) approving the agreement which documents these commitments.

This motion is based upon the application submitted, the staff report, factual testimony, the recommendations of the Planning Board and the Downtown Action Committee, and the findings that the proposed rezoning complies with all of the amendment standards found in Section 94-32 of the Zoning and Land Development Regulations.

Background Information:

On June 23, 1980, the City Commission approved Ordinance No. 1505-80, rezoning the property located at 1100 Banyan Boulevard from R-5

(Multiple Dwelling District) to C-2 (Commercial District) and subsequently from C-2 to General Commercial Planned Unit Development (CPUD). At this time, the proposed development consisted of a new office building for the First Federal Savings and Loan Association of The Palm Beaches.

On September 22, 1997, the Gateway Center development was approved via Ordinance No. 3085-97, allowing the construction of an eighty thousand (80,000) square foot television broadcast studio, with appurtenant satellite dishes, microwave dishes, and a helipad. On May 31, 2011, the Planned Development (PD) was amended to allow additional satellite dishes via Resolution No. 109-11.

On July 3, 2025, Harvey Oyer of Shutts & Bowen, on behalf of 1100 Banyan LLC, submitted a Downtown Master Plan application to request the rezoning of the existing Gateway Center Planned Development to the Clearlake District-25.

Policy 3.1.4 (D.) of the DMP Element of the City's Comprehensive Plan states that new PDs shall not be permitted and existing PDs shall not expand. The intent of this policy is to ensure that development within the DMP area is consistent with the intent of the DMP zoning regulations. Policy 3.1.4 (D.) specifically states that if a Planned Development is abandoned, the properties included with the Planned Development will be deemed to have the development capacity and zoning for the district in which the properties are located.

After the City's 1995 adoption of the DMP and the subsequent update in 2009, the underlying zoning for the area has been the ClearLake District - 25 (CLD-25). This request would abandon the PD status and formally adopt the existing DMP zoning district.

Planning staff analysis of the rezoning request is detailed in the Planning Board Staff Report.

On November 12, 2025, the Downtown Action Committee (DAC) recommended approval (6-0) of the rezoning request, and on November 18, 20225, the Planning Board also recommended approval (6-0).

Commission District 3: Commissioner Christy Fox.

Public Hearing of Resolution No. 11-26: A request by Heather Jo Allen, Esq. of Keiser Legal, PLLC, on behalf of Everglades College, Inc., for a Major Amendment to the Keiser University Community Service Planned Development (CSPD), to amend the master plan by adding new uses and to amend the current development regulations.

Originating Department:

Development Services

Ordinance/Resolution:

RESOLUTION NO. 11-26: A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF WEST PALM BEACH, FLORIDA, APPROVING A MAJOR AMENDMENT TO THE KEISER UNIVERSITY COMMUNITY SERVICE PLANNED DEVELOPMENT, GENERALLY LOCATED AT 2600 NORTH MILITARY TRAIL, REVISING THE MASTER PLAN AND MODIFYING THE DEVELOPMENT REGULATIONS; DECLARING THIS AMENDMENT CONSISTENT WITH THE COMPREHENSIVE PLAN OF THE CITY; PROVIDING AN EFFECTIVE DATE; AND FOR OTHER PURPOSES.

Staff Recommended Motion:

Approve Resolution No. 11-26 based upon the application submitted, the staff report, factual testimony, the recommendation of the Planning Board, the findings that the request complies with the Comprehensive Plan, and the standards in Section 94-32(a) and 94-35(c) of the City's Zoning and Land Development Regulations.

Background Information:

The subject site is comprised of three (3) parcels approximately 89.14 acres in size and generally located at 2600 North Military Trail, along the east side of North Military Trail (between Orlando Avenue and Gardenia Street), within the Keiser University Community Service Planned Development (CSPD) zoning district. The current master plan illustrates a combination of existing development and proposed building areas/bubbles where future development is intended to take place, since the Keiser University flagship campus is not fully developed.

The applicant is requesting approval of a Major Amendment to the Keiser University CSPD to modify the proposed building area/bubble number 12 to include the dormitory use and thus reflect that cultural center, classrooms, administrative, and dormitory uses are permitted within this proposed building area/bubble. The applicant is also requesting to modify the proposed building area/bubble number 16 to include the classrooms and aquatic center uses and thus reflect that student union, dormitories, classrooms, and aquatic center uses are permitted within this proposed building area/bubble.

Additionally, the applicant is requesting modifications to the provisions specifically pertaining to vehicular parking requirements that are outlined in the development regulations for the Keiser University CSPD. Currently, the minimum vehicular parking requirements for the Keiser University CSPD are one (1) parking space per two (2) student stations, one (1) parking space per full-time faculty/staff member, one (1) parking space per two (2) adjunct/part-time faculty/staff members, one (1) parking space per four (4) seats in assembly places, and 20 parking spaces for visitors. Specifically, the applicant is requesting to establish a minimum vehicular parking requirement of 0.7 parking spaces per full-time on-campus students for the Keiser University CSPD.

Staff finds the requested Planned Development Major Amendment is consistent with the type of development permitted within the Keiser University CSPD as well as the City's Comprehensive Plan.

The Planning Board recommended approval with conditions (5-0) of this request to the City Commission after a Public Hearing on December 16, 2025, based on the testimony presented at the hearing, along with the application submitted and the Staff Report, that the request does comply with the standards for the Planned Development Major Amendment.
