Help shape the future of Downtown West Palm Beach!

The City is continuing its update to the Downtown Master Plan, and we want your input on the next steps. During this *Community Conversation*, the team will share **preliminary vision concepts and recommendations** that respond to what we’ve heard so far from residents, businesses, and stakeholders.

Join us for an interactive evening with **live survey questions**, opportunities to react to proposals, and time to share what matters most to you. Your voice will help guide the long-term vision for **housing, mobility, public space, development, and the character of Downtown’s neighborhoods**.
